

Relaxia

Lay back and
unwind

Relaxia is an attractive indoor sauna that combines uncomplicated comfort with an exquisite modern style.

This is a sauna of contrasts; the black-waxed twin ergonomic benches, elegantly curved and backlit by LED strip lights, create a striking effect when coupled with the classic appeal of the horizontal interior wall panels, which are coated with clear sauna wax to accentuate the wood's natural light colour and characteristic smooth texture.

With its black-framed glass façade with premium black door handles and hinges, and all interior elements in durable thermo-aspen, every detail of Relaxia is carefully crafted from the finest materials. The result is a sauna that looks exceptional while creating a calming, satisfying bathing experience that can't be matched.

Key features and extras

Exterior and interior panelling

Relaxia's walls are made from thermo-aspen panels, with colourless sauna wax adding a layer of protection and visual appeal.

Benches

Relaxia has two ergonomic benches that are perfect for lounging, all in thermo-aspen with a luxurious coating of protective black sauna wax.

Lighting effect

Relaxia features a stylish lighting effect, with the sauna illuminated by LED strips located behind the benches.

Flooring and heater guard

The floor grids and heater guard are made from durable thermo-aspen and coated with a protective layer of colourless wax, matching with the design of the sauna's walls.

Glass façade

Relaxia's front wall and door, with tempered 8 mm clear glass and a stylish black frame, gives the sauna a stately first impression.
